[Cities After Socialism by Gregory Andrusz](#)

Cities of East Central Europe exhibit distinct form of urban spatial structure and residential patterns which are still in sharp contrast with West European cities. After 1945 these cities were developed according to communist ideology, of which the main aim was to create a socially just society (Sýkora, 2009). The elimination of market economy, the nationalisation of land and property, the common ownership of almost all means of production had significant influence on urban development.

[Urban sprawl and land conversion in post-socialist cities ...](#)

Urban governance in post-socialist cities is more reactive to the interest of capital investments as well as tolerant of illegal practices than it is strategically proactive, which leads to organic rather than comprehensive entrepreneurial city development.

[Cities after Socialism as a Research Issue](#)

Urban planning in the Soviet Bloc countries during the Cold War era was dictated by ideological, political, social as well as economic motives. Unlike the urban development in the Western countries, Soviet-style planning often called for the complete redesigning of cities.. This thinking was reflected in the urban design of all communist countries extending as far as China and North Korea.
