Constructionism: Research Reports and Essays, 1985-1990 ...

Constructionism : research reports and essays, 1985-1990. Abstract : In 1985 the Media Lab was created at MIT to advance the idea that computation would give rise to a new science of expressive media. Within the media lab, the Epistemology and Learning group extends the traditional definition of media by treating as expressive media materials with which children play and learn.

Constructionism : research reports and essays, 1985-1990 ...

1 Definition Constructionism is a constructivist learning theory and theory of instruction. It states that building knowledge occurs best through building things that are tangible and sharable (Ackerman et al., 2009: 56). " Constructionism (in the context of learning) is the idea that people learn effectively through making things.

Constructionism research reports and essays

Situating Constructionism By Seymour Papert and Idit Harel The following essay is the first chapter in Seymour Papert and Idit Harel's book Constructionism (Ablex Publishing Corporation, 1991). It is easy enough to formulate simple catchy versions of the idea of constructionism; for example, thinking of it as "learning-by-making." One purpose

MIT Media Lab

The central idea is that a powerful way for learners to build knowledge structures in their mind is to build with external representations, to construct physical or virtual entities that can be reflected on, edited and shared. In this chapter, we outline research that has addressed the ways that the constructionist approach seeks to develop knowledge structures in the mind alongside physical or virtual structures external to the mind, and as such is as much a theory of epistemology as of ...
