Two former professional sportsmen are on a mission to Make Minds Move. After suffering career-ending injuries, Adam Clayton and Graham Hogg both experienced mental health issues and understand the huge impact these have on everyday life for thousands of men each day. Two core pillars of sport are communication and challenge, which is why today both Adam and Graham agree that sharing tales and challenging themselves both mentally and physically is key to maintaining a healthy mind.

Home - Make Minds Move

Mind uploading, also known as whole brain emulation, is the hypothetical futuristic process of scanning a physical structure of the brain accurately enough to create an emulation of the mental state and copying it to a computer in a digital form. The computer would then run a simulation of the brain's information processing, such that it would respond in essentially the same way as the original brain and experience having a sentient conscious mind. Substantial mainstream research in related area

Mind uploading - Wikipedia

Physical health problems. Environmental issues such as damp, mould, and dirt can make you physically unwell. If you don't have access to cooking or washing facilities you might find it hard to eat healthily, exercise and take care of yourself.
